

U. MANJUNATH

Java Backend Developer | Fresher

Bangalore, Karnataka, India

GitHub | LinkedIn | umanjunath7210@gmail.com | +91-7899775784

SUMMARY

Java Backend Developer with hands-on experience building RESTful APIs using Spring Boot, Spring Data JPA, and MySQL. Skilled in implementing CRUD modules, layered architecture, authentication and role-based authorization using Spring Security. Experienced in API testing with Postman, Git-based version control, and Maven-based builds. Seeking an entry-level backend role to contribute to scalable, database-driven applications.

TECHNICAL SKILLS

- **Backend Technologies:** Java, Java 8, Spring Boot, Spring MVC, Spring Security
- **Persistence:** Spring Data JPA, Hibernate, JDBC
- **Databases:** MySQL
- **API & Web:** REST APIs, JSON
- **Core Concepts:** OOP, Collections, Exception Handling, Multithreading
- **Tools:** Git, GitHub, Maven, Postman, Apache Tomcat, Eclipse

PROJECTS

Blog Application – Spring Boot

- Developed RESTful APIs for Users, Posts, and Categories using Spring Boot and Spring Data JPA
- Implemented role-based authentication and authorization using Spring Security
- Designed entity relationships and handled database operations using Hibernate and MySQL
- Implemented centralized exception handling and request validation
- Tested APIs using Postman and managed code using GitHub
- Packaged and deployed the application using Maven and embedded Tomcat

Wildlife Tour Management System

- Built a Java web application using Servlets, JSP, and JDBC following MVC architecture
- Implemented CRUD operations and session management with MySQL
- Applied input validation and exception handling for reliability
- Designed relational database schema for tour and booking management
- Deployed and tested the application on Apache Tomcat

TRAINING & INTERNSHIP EXPERIENCE

Java Full Stack Developer Trainee

Bangalore

Pentagon Space Pvt. Ltd.

- Developed backend modules using Java, Spring Boot, and MySQL
- Built REST APIs and integrated database operations
- Worked on backend-focused real-time projects following industry practices

KEY TECHNICAL STRENGTHS

- REST API Development
- Backend Application Development
- Database Design and Integration
- Authentication and Authorization
- Object-Oriented Programming
- Debugging and Problem Solving

EDUCATION

Bachelor of Engineering – Computer Science and Engineering

VTU University

Dec 2021 – June 2025

CGPA: 7.05/10

Senior Secondary (Class XII)

Bellary Independent Pre-University College

Mar 2019 – July 2021

Percentage: 86%

CERTIFICATIONS

- Java Full Stack Development – Pentagon Space Pvt. Ltd., Bangalore
- Full Stack Development Internship – Techno Fly Solutions, Bangalore
